

North American Rock Garden Society Columbia-Willamette Chapter

Joining the local chapter will provide you the opportunity to learn from other members who come from varied horticultural backgrounds — botanists, nurserymen, and lifetime gardeners. Our meetings are informal and speakers may be local or from abroad. We also share information on propagation, trough building and alpine gardening. Plant sales, meeting door prizes and exchanges allow members access to unusual plants to add to their personal collections.

The Chapter meets normally on the third Tuesday of the month (except July and August) at 7:30 pm at the SMILE Station at 8210 SE 13th Avenue in Sellwood (SE 13th Avenue one block south of Tacoma Street). Call Jan Jeddeloh at 503-481-3144 for more information.
